

time filler for Elementary Kids

Following Directions

- 1) Hop on one foot to the door.
- 2) Turn around five times.
- 3) Sing the first verse of Jesus Loves Me.

Here is just one set of fun directions you can give your kids while waiting for the next VBS activity on the list. Below, you will find a set of cards with other directions. I tried to make them as generic as possible, but feel free to make any necessary changes to fit your situation. I suggest you place the cards in a bucket or hat and have a child pick one out and perform the directions. You will read the directions to the child just once. So tell him beforehand that he must listen very carefully. After you read the directions, have the child perform them. Have him return to you and then read the directions a second time to see if he performed each one correctly and in order. If he did, you might want to reward him with some kind of treat. Have fun!

A Scripture Lady Product, c. 2009
